tejas.bhagwat@wur.nl
Droevendaalsesteeg 3a Building 100 ⋄ 6708 PB Wageningen

Appointments

Postdoctoral Researcher, Wageningen University Sep 2026 - Present
Wildlife Ecology and Conservation Group

Research focus: Global Change Ecology - Rangeland ecosystems

Research Scientist, Thünen Research Institute 2025-2026
Institute of Biodiversity

Research Scientist, DDA 2025
German Federation of Ornithologists (DDA)

Postdoctoral Researcher, University of Göttingen 2025
Department of Conservation Biology

Education

PhD in Conservation Biology, University of Göttingen 2021-2025

MSc Global Change Ecology, University of Bayreuth 2015-2018

BSc Biology and Environmental Science, George Mason University 2008-2012

Research publications

Tejas Bhagwat, Ruslan Urazaliyev, Leon Nill, Matthias Baumann, Maxim Koshkin, Rob Sheldon, Johannes Kamp, Tobias Kuemmerle. 2026. "Habitat suitability for Sociable Lapwing (Vanellus gregarius) increases across its global range, but populations continue to decline." ***Journal of Ornithology***. https://doi.org/10.1007/s10336-025-02357-2

Shirko Shokri, Mahmoud-Reza Hemami, Mohsen Ahmadi, Saeid Pourmanafi, **Tejas Bhagwat**, Johannes Kamp, Matthias Waltert, and Mahmood Soofi. 2026. "Ecological drivers of change in waterbird communities of Iranian wetlands." ***Journal for Nature Conservation*** 89:127150.

Tejas Bhagwat, Philippe Rufin, Tobias Kuemmerle, and Johannes Kamp. 2025. "Landscape composition drives winter bird assemblages in agriculture–savanna mosaics of Western India." ***Ecological Applications*** 35 (2): e70016.

Johannes Kamp, **Tejas Bhagwat**, Norbert Hölzel, and Ilya Smelansky. 2025. "Collapse and recovery of livestock systems shape fire regimes on the Eurasian Steppe: A review of ecosystem and biodiversity implications." ***Philosophical Transactions of the Royal Society B: Biological Sciences*** 380 (1924): rstb.2024.0062.

Tejas Bhagwat, Tobias Kuemmerle, Mahmood Soofi, Paul F Donald, Norbert Hölzel, Albert Salemgareev, Ingrid Stirnemann, Ruslan Urazaliev, Matthias Baumann, and Johannes Kamp. 2024. "A novel, post-Soviet fire disturbance regime drives bird diversity and abundance on the Eurasian steppe." ***Global Change Biology***, 30(1).

Roman Bonnier, Tobias Plieninger, **Tejas Bhagwat**, and Johannes Kamp. 2024. "Viticulture abandonment benefits the bird community of the French Mediterranean." ***Basic and Applied Ecology*** 79 (September):46–56.

Emmanuel Da Ponte, Fermín Alcasena, **Tejas Bhagwat**, Zhongyang Hu, Luca Eufemia, Ana Paula Dias Turetta, Michelle Bonatti, Stefan Sieber, and Poppy-Louise Barr. 2023. "Assessing wildfire activity and forest loss in protected areas of the Amazon basin." ***Applied Geography***, 157:102970.

Tejas Bhagwat, Igor Klein, Juliane Huth, and Patrick Leinenkugel. 2019. "Volumetric analysis of reservoirs in drought-prone areas using remote sensing products." ***Remote Sensing,*** 11(17).

Andrew Tilker, Jesse F Abrams, Azlan Mohamed, An Nguyen, Seth T Wong, Rahel Sollmann, Jürgen Niedballa, **Tejas Bhagwat,** Thomas NE Gray, Benjamin M Rawson, et al. 2019. "Habitat degradation and indiscriminate hunting differentially impact faunal communities in the Southeast Asian tropical biodiversity hotspot." ***Communications Biology***, 2(1):396.

Andrew Tilker, An Nguyen, Jesse F Abrams, **Tejas Bhagwat,** Minh Le, Thanh Van Nguyen, Anh Tuan Nguyen, Jürgen Niedballa, Rahel Sollmann, and Andreas Wilting. 2018. "A little known endemic caught in the South East Asian extinction crisis: the Annamite striped rabbit Nesolagus timminsi." ***Oryx***, 1–10.

Robert Brozovic, Jesse F. Abrams, Azlan Mohamed, Seth T. Wong, Jürgen Niedballa, **Tejas Bhagwat**, Rahel Sollmann, Sam Mannan, Johnny Kissing, and Andreas Wilting. 2018. "Effects of forest degradation on the moonrat Echinosorex gymnura in Sabah, Malaysian Borneo." ***Mammalian Biology,*** 93:135 – 143.

Jesse F. Abrams, Jan Axtner, **Tejas Bhagwat,** Azlan Mohamed, An Nguyen, Jürgen Niedballa, Rahel Sollmann, Andrew R. Tilker, and Andreas Wilting. 2018. "Studying terrestrial mammals in tropical rainforests: A user guide for camera-trapping and environmental DNA." Leibniz-IZW, Berlin, Germany.

Tejas Bhagwat, Andrea Hess, Ned Horning, Thiri Khaing, Zaw Min Thein, Kyaw Moe Aung, Kyaw Htet Aung, Paing Phyo, Ye Lin Tun, Aung Htat Oo, Anthony Neil, Win Myo Thu, Melissa Songer, Katherine LaJeunesse Connette, Asja Bernd, Qiongyu Huang, Grant Connette, and Peter Leimgruber. 2017. "Losing a jewel: Rapid declines in Myanmar's intact forests from 2002-2014." ***PLOS ONE***, 12(5):1–22.

Teaching experience

Data analysis for field biologists, University of Göttingen	2024 - 2025
Remote sensing for nature conservation, University of Göttingen	2021 - 2025
Introduction to R, University of Bayreuth	2016 - 2018

Professional experience

Researcher at the German Aerospace Center, Oberpfaffenhofen, Germany 2018-2020

- Volumetric analysis of reservoirs in drought-prone areas using Landsat time-series data

- Monitoring urban growth and vulnerability to natural hazards for Africa

Research associate Leibniz Institute for Zoo and Wildlife Research, Berlin, Germany 2016-2018

- Supervised land-cover classifications in Vietnam and Malaysia using RapidEye satellite imagery
- Land-use land cover analysis of habitat - species associations for occupancy modeling

Research associate at Earth Observation Center, Oberpfaffenhofen, Germany 2016

- Mapping for refugee camp structures and expansions using high-resolution satellite data

Research associate at Ecodev/Alarm (NGO), Yangon, Myanmar 2014-2015

- Forest cover change mapping for Myanmar using field data and Landsat archive

GIS and remote sensing intern at Smithsonian Conservation Biology Institute, Virginia, USA 2014

- Habitat suitability mapping for Asian wild elephants (*Elephas maximus*) in Sri Lanka using remote sensing data
- Digitization of human infrastructure in Mongolian steppes to analyze impact on Mongolian gazelle (*Procapra gutturosa*) distribution

GIS and remote sensing intern at Goddard Space Flight Center (NASA), Marlyand, USA 2014

- Work on remote sensing based habitat suitability analysis for reintroduction of Scimitar-horned Oryx (*Oryx dammah*) in Chad

Technical strengths

Field	Land cover mapping, scientific survey methods (camera trapping, transect sampling)
Proficient	GIS software, R programming, Google Earth Engine, High-Performance Computing
GitHub	https://github.com/tejasbhagwat

Grants

Oriental Bird Club Conservation Grants (2022)

- Project title: Impacts of agricultural land-use on migratory birds in fragmented grasslands of peninsular India

Conferences

Poster presentation at European Ornithologists' Union Congress, Lund (2023)
Oral presentation at Ecological Society of Germany, Austria and Switzerland, Leipzig (2023)
Oral presentation European Congress of Conservation Biology, Bologna (2024)

Other

Citizenship:
Germany and India

Languages:
Marathi (native), English (fluent), Hindi (fluent), German (proficient)
